CAREER SUMMARY

Full-Stack Developer with 1.5 years of experience building mobile, web and AI products end to end. Lead developer on Baojai, a wellness platform that won the Platinum Award (Highest Distinction) at BME IIF 2026 in Japan, spanning a React Native app with BLE wearables, Python microservices on Google Cloud Run, Next.js web apps and camera-based vital signs. Also builds LLM applications with LangChain, Gemini and Langfuse, including a wellbeing chatbot for an insurance client and a multi-agent pipeline that turns requirements into tested code.

EXPERIENCE

SCAI (SC AI Co., Ltd.) · Full-Stack Developer

May 2025 – Present

Baojai, wellness and biofeedback platform · Lead developer — Feb 2026 – Nov 2026

Released on the App Store and Google Play, 2026 (service since shut down)

- Built the Expo React Native app for iOS/Android with BLE integrations for 5 wearables (smart rings, EEG headbands), including ring firmware updates over BLE, Apple HealthKit sync and LiveKit video sessions.
- Designed a FastAPI backend of 9 services and 3 workers on Cloud Run behind one API gateway (Supabase); verified tokens inside each service to remove the auth bottleneck at 2,000 concurrent users.
- Built camera vital signs: on-device rPPG heart rate (CHROM, FFT) and optical-flow breathing rate via WebSocket.
- Built the video pipeline for hour-long recordings: 60-second segments uploaded while recording, a save journal that survives iOS suspending the app, and a self-healing ffmpeg/HLS worker on Pub/Sub.
- Built the booking site (Next.js, Stripe) with crawler-specific HTML so links preview in LINE, and the admin console (RBAC, 2FA) covered by Playwright E2E tests.

SCAI Security, patrol and visitor management — Nov 2025 – Jun 2026

- FastAPI microservices (hexagonal), a role-based Next.js dashboard, and a Sunmi handheld app that scans and prints.

Client and internal projects — May 2025 – Jun 2026

- **ME TIME (insurance client):** wellbeing chatbot that recommends activities from the user's mood (LangChain, Gemini).
- **Ruthi:** land and title-deed app in Expo React Native; top contributor. **Punpleng:** AI jingle generator with PromptPay (Next.js).
- **AI-Company v2:** multi-agent pipeline that turns requirements into tested, reviewed code (Gemini, Claude).

AWARDS & ACTIVITIES

- **Platinum Award (Highest Distinction) and Gold Medal with Jury Congratulations**, BME IIF 2026, Fukuoka, Japan, for *Baojai Wellness Ecosystem: A Multimodal AI Biofeedback Platform* (team of 6, SCAI × KMITL). Oct 2026
- **Exhibitor**, Thailand Wellness & Healthcare Expo 2026, BITEC Bangkok (150+ booths): ran the Baojai booth. Jun 2026
- **Research assistant**, EEG brain-signal studies with the Emotiv headset, Naresuan University. Sep 2026

PERSONAL PROJECTS

- **autoclip:** automated YouTube Shorts pipeline (faster-whisper, OpenCV, Gemini) running 3 channels.
- **jpmusic-channel:** AI music channel that automates song production, lyric alignment and video rendering.
- **trading-bot:** stock and crypto rebalancer with risk guards and paper trading (Alpaca, ccxt, Streamlit).

SKILLS

Mobile	React Native, Expo / EAS, BLE, Apple HealthKit, LiveKit
Web	Next.js, React, TypeScript, JavaScript, HTML/CSS, Tailwind, React Query
Backend	Python, FastAPI, Node.js, Express, Supabase / Postgres, Google Cloud Run, Docker
AI & media	Gemini, Claude, LangChain, Langfuse, OpenCV, FFmpeg
Testing	Playwright, pytest, Maestro, Sentry
Also familiar	MongoDB, Redis, NestJS, Vue / Nuxt
Languages	Thai (native), English (good reading and writing, basic speaking)

EDUCATION

Thammasat University · B.Eng. in Software Engineering — 2020 – 2024
